YOUR FIRE ESCAPE PLAN

Plan, Prepare, Practice, Prevent

Use the grid above to PREPARE your fire escape plan. Draw the floor plan of your home (include all windows and doors) and label each sleeping area. Indicate all working smoke alarms. Plan at least two routes of escape from every room and mark your family meeting spot, located safely away from your home. Post in a visible spot and let overnight guests and caretakers become familiar with it. Most importantly, PRACTICE your escape plan (at least twice a year). Make sure your family members are family with safe escape tactics. PLAN for having assistance for any children or elderly in your home. PROGRAM all your family member's phones with each other phone numbers and emergency numbers.
